

OPERATING SYSTEM-INSTALLATION LINUX

We are happy to develop an individual operating system based on Linux according to your requirements. We usually use the Yocto development environment for this. The advantages for you are the savings in licence costs and the compact operating system optimised for your application.

LINUX BETRIEBSSYSTEM INSTALLATION

YOUR ADDED VALUE

- > Significant time savings
- > Functional reliability
- > Licence cost savings for Linux operating systems
- > Reproducibility

INSTALLATION SERVICE

We create an individual operating system based on Linux for you according to your requirements and install it on your computer system. We usually use the Yocto development environment for this. The advantages for you are the savings in licence costs and the compact operating system optimised for your application.

IMAGE-STORAGE

Together and in consultation with them, we create an image of the operating system and then store it securely on our local server and manage it over the agreed term. In this way, we can ensure that you receive the same system ready to switch on with every delivery.
